A diagram showing a 10x10 grid of pink circles, each containing the number '2'. A diagonal path is labeled with letters A through J. The path starts at the top-left circle (labeled J) and ends at the bottom-right circle (labeled A). The labels are arranged as follows:

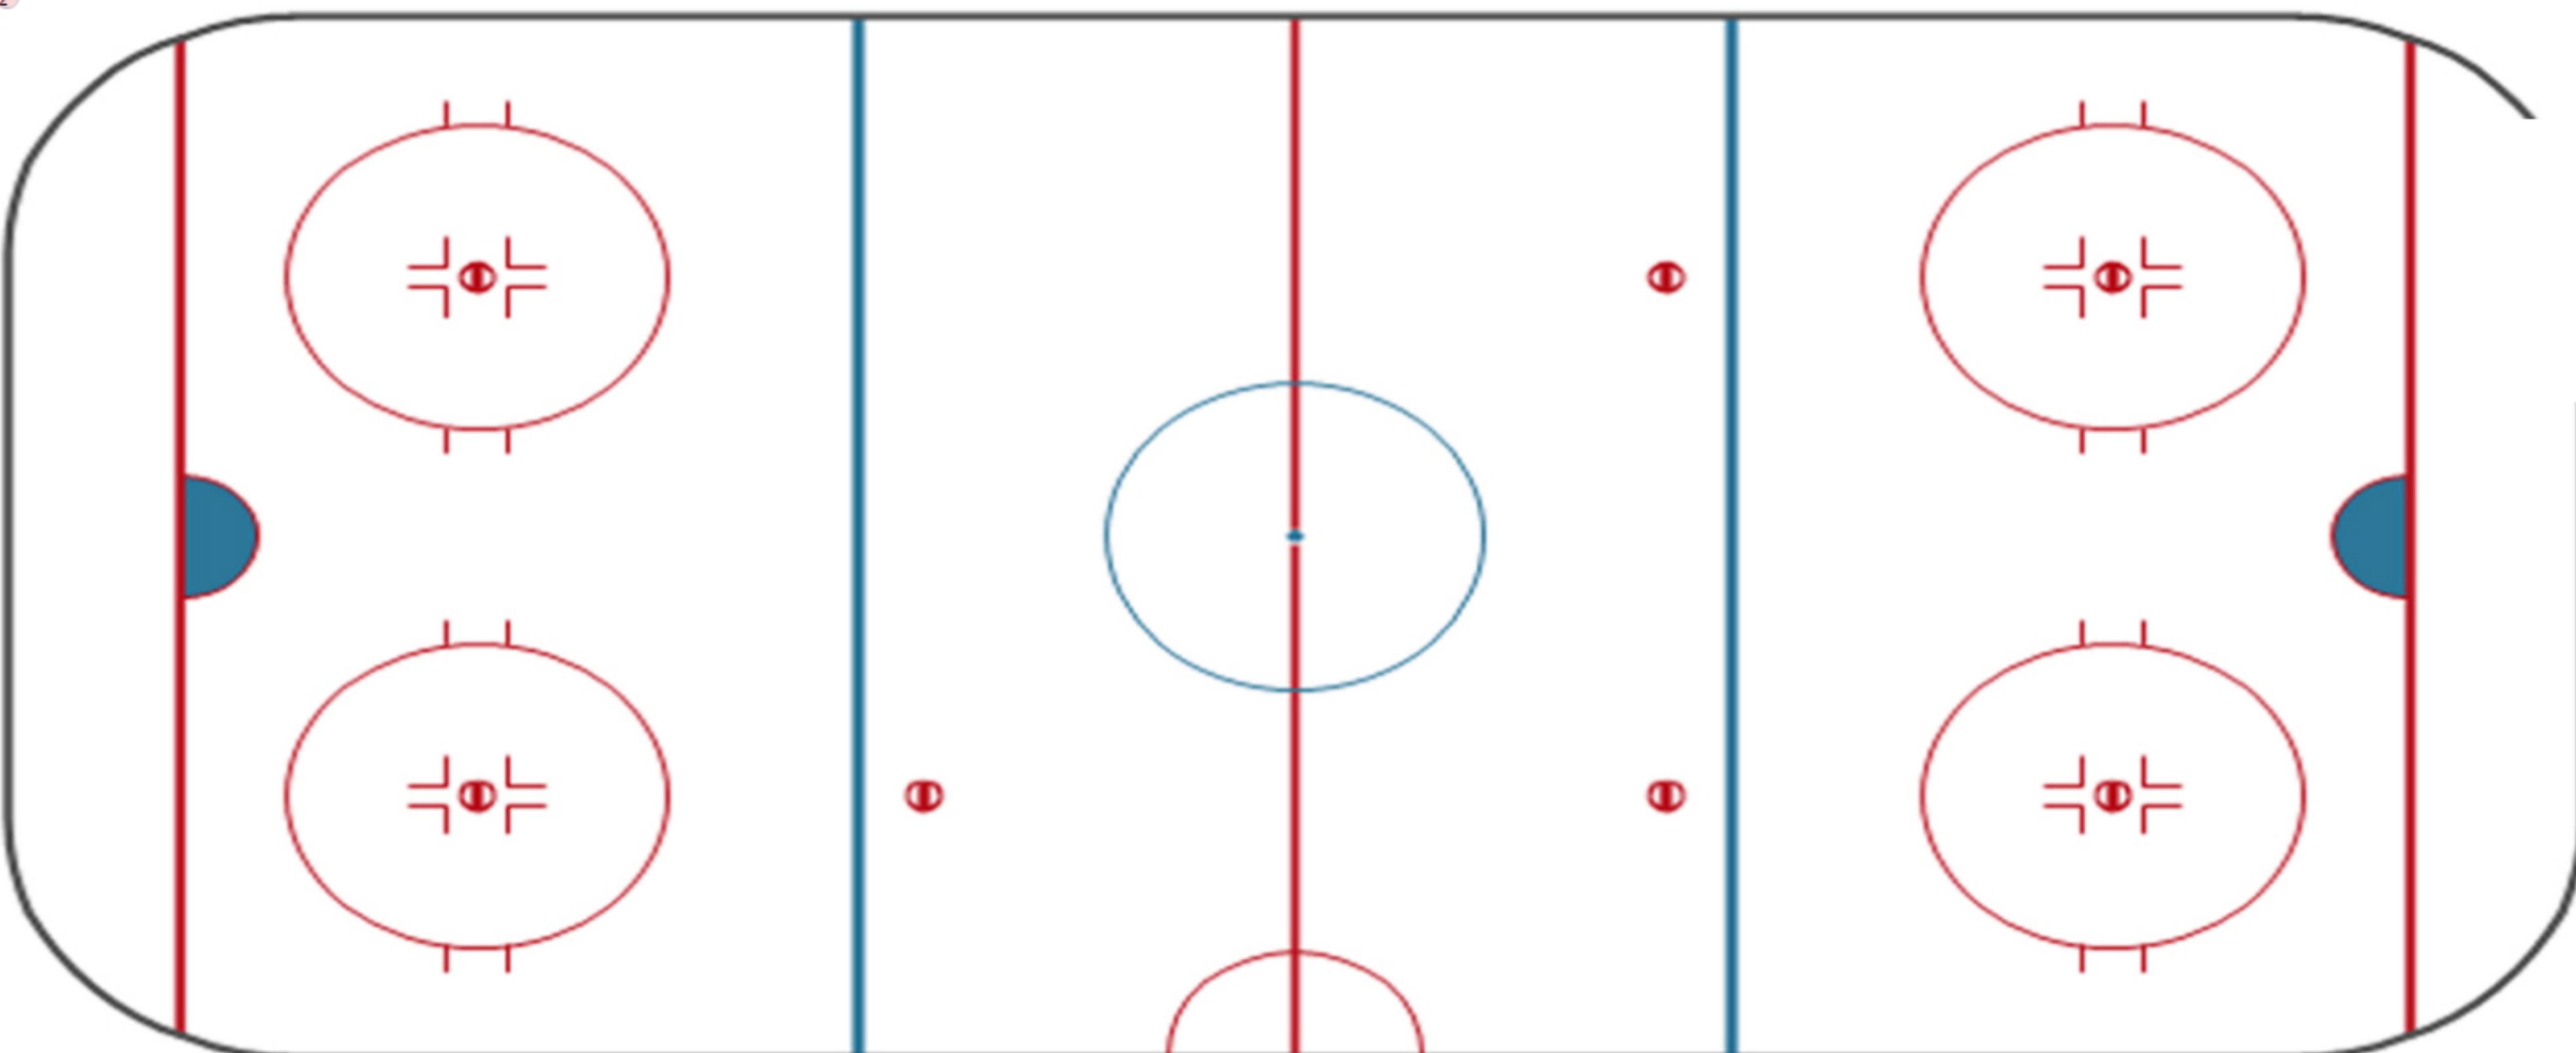

- Row 1: J, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 2: H, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 3: G, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 4: F, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 5: E, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 6: D, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 7: C, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 8: B, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 9: A, 2, 2, 2, 2, 2, 2, 2, 2, 2
- Row 10: A, 2, 2, 2, 2, 2, 2, 2, 2, 2

An arrow points to the circle labeled B.

S16

The diagram illustrates a circular RNA molecule. A curved black line represents the main backbone, which forms a hairpin loop on the left side. The loop is labeled with bold letters: A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z. The backbone continues from the loop, ending at position 214 (indicated by a red vertical line). From this point, a horizontal blue line extends to the right, representing a poly-A tail. The tail consists of multiple 'A' nucleotides, indicated by green circles with the number '3' inside.
